Hi Mike,

I've checked out the video. Also, I found out that Trish was unaware that she was being interviewed for a media piece. Mr. Cannon identified himself as a representative of a citizens organization. Please understand that as a Community Involvement Coordinator, Trish serves as a liaison between community members and EPA. My understanding is that Trish is still working on making arrangements for you to get B-roll during your trip to Dimock. She will be there all week and you should let her know what day you plan to go there.

As for EPA's response to the more recent statements issued by Cabot, we still prefer to respond in writing. Thanks. --

Terri

Hi Terri, Trish,

I notice this CNN I-report includes an interview with Trish. Was that on camera? If so I'll respectfully repeat my own request. If you do for one you should do for all.

Regards,

Mike
